Site Baseplan: HWR-KMA-01-ZZ-DR-A-1004_P2_Proposed Site Plan_modified

- Schwegler 2F Universal Bat Box

Schwegler 2F
Universal Bat Box

Notes

All bat boxes are to be located fadng south to southeast to allow the boxes to be warmed by the Sun. They should not be placed where the flight path would be blocked by Obstructions Or vegetation and should not be directly illuminated by artificial lighting.

Bat boxes are to be installed on mature trees at a minimum of 4m above ground level. All boxes are to be located facing south to southeast to allow the boxes to be warmed by the sun. They should not be placed where the flight path would be blocked by obstructions or vegetation and should not be directly illuminated by artificial lighting.

Boxes of similar specifications but different brands may be used. The current plan should be implemented prior to first occupation and following the review of a risk assessment where working at height is required.
