- Enforce a policy restricting community members' visits; prioritize appointments and limit access to maintain the children's privacy and security.

6. Property Regulations:

- Ensure Ofsted registration for the property.
- Allow visits by appointment only to maintain a controlled environment.

7. Care Plan Adherence:

- Strictly follow care plans for young people allowing them to leave the property only as per their care plan states.

- The company will accept young people only if a full-time education plan is in place and confirm that there will be no onsite education.
