Good evening All,

Please find attached drawing no. A1381 SK 07 which indicates the location of the building as shown in the planning application 20/00421/FUL together with the location of the building in the current application. I have also indicated the 2m x 2m visibility splays to the entrance into the car park.

Could these be reviewed and any issues highlighted as soon as possible,

Kind regards,

Alex Halford
