To Whom it May Concern

RE: SuDS Inspections

This letter is to confirm that all surface water drainage, including any SuDS, on the development will be inspected by a member of the Technical team on a monthly basis as per the Barratt Redrow procedure. Records of inspections shall be kept via the completion of the SHE10 Site Water Management Inspection form.

Inspections shall take place until the drainage feature is either handed over to the Management Company or adoption authority.

Yours sincerely

Katy Willmott
Technical Manager
