

THE COMPONENTS

- 1 Timber**
All timber components are sustainably sources, designed and manufactured at our Warwickshire production facility using the latest software and machinery.
- 2 Insulation**
Similar to what we use within our other construction solutions, the high quality insulation ensures the right level of heat retention all year round.
- 3 Windows and doors**
Working with trusted partner, Nationwide Windows and Doors, the double glazed range are delivered and installed by their specialist installation team.
- 4 Cladding**
Completing the external finish, the cladding, eaves and roof covering ensures your garden studio not only looks great but is also weatherproof.
