

Floor plan of the first floor showing the layout of the Dining, Kitchen, Hall, Lounge, and cpd (commonplace) areas. The plan includes existing guilley (green dashed lines) and new construction lines (red solid lines). The Hall features a central staircase. The Dining area is adjacent to the Kitchen, and the Lounge is a large open space. The cpd area is located at the bottom left. The plan also shows various doorways and structural elements.

A floor plan of a two-bedroom house. The layout includes a large central hall (Landing) with a staircase. To the left of the hall is Bedroom 2, and to the right is Bedroom 1. A Bathroom is located at the bottom left, adjacent to Bedroom 2. The plan shows doors, windows, and a central staircase.

The diagram shows a building facade with a green roof. The facade is divided into three main sections: a central entrance and two side wings. The central entrance has a door and a large window. The side wings have windows. Red hatched areas are located below the windows and around the entrance area, indicating damage or repair work. A green line runs vertically along the right side of the building, and a green line runs horizontally along the top of the building, representing the roof edge.
