Description of Proposed Works

Please describe the proposed works

The footprint of the property will not be changed.
Conversion of an Integral garage space into a dining room.
Brick up the existing garage door with the addition of a white upvc window. All done to match existing brickwork design details and existing windows.
Inclusion of a small internal section to be used as a cupboard.
Garage space was previously being used for storage as it is not large enough to house our vehicle. Parking arrangements are currently satisfied by the driveway at the property. Due to this, the conversion of the garage has no impact on current parking conditions.
The council was informed and given notice of this work prior to its commencement. Once a response was received notifying us that we cannot carry out this work under permitted development, all work on the site has ceased.

Biodiversity net gain

Householder developments are currently exempt from biodiversity net gain requirements.

However, this exemption still needs to be confirmed by the applicant or agent when making a householder planning permission application.

☒ I/we confirm that the proposed development, if granted permission, would be exempt from the general biodiversity gain condition.

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended) sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'general biodiversity gain condition'.

However, the 'general biodiversity gain condition' does not apply in relation to planning permission for a development which is the subject of a householder application, within the meaning of Article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).
