ARTICLE 35

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

PLANNING HISTORY

There are related applications for other advertisements at Unit 1 – (21/00733/ADV) and for conversion to commercial vehicle workshop and other external changes (21/00763/FUL).

TECHNICAL CONSULTATIONS:

Environmental Health – No Objection.

Highways - No objection subject to a luminance condition. Issues raised with the previous highway response have now been addressed.

This application has been publicised by a site notice and by letters sent to 12 neighbours. No objections have been received.

ISSUES AND ASSESSMENT:

PROPOSAL

The application is for the installation of various signs at the premises.

POLICY CONSIDERATIONS

The application complies with Policies CS2 and CS19 of the Core Strategy and saved Policy S10 of the UDP.

AMENITY

The design of the signs is acceptable in its industrial area location close to a prominent road (A580) and proportionate in scale. The majority of the signs would be relatively small scale with minimal visual impact. The freestanding signs would be larger but would be located in the context of street trees lighting and other street furniture. Overall, there would be no harm to amenity from the proposal.

PUBLIC SAFETY

The signs would not adversely affect highway safety as the signs are located outside the highway and at an appropriate height for pedestrians. The proposal would therefore not harm public safety. This is supported by the views of the council's highways department who have no objection to the development subject to a luminance condition.

CONCLUSION

The proposal is acceptable in relation to amenity and public safety. The application complies with local planning policies and is recommended for approval.

RECOMMENDATION:

That Planning Permission be granted subject to the following condition(s):-

- 1) The proposal hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

- 2) Luminance Level

The maximum luminance of the advertisement shall not exceed 300cd/m² between dusk and dawn, as defined by official lighting up times, and 600cd/m² outside of these times, in accordance with the Institute of Lighting Professionals (ILP) Technical Note 5 'The Brightness of Illuminated Advertisement'.
