

<u>APPLICATION NO:</u>	22/00679/FUL	<u>CASE OFFICER:</u>	Reece Black
<u>WARD:</u>	Cherryfield	<u>PARISH:</u>	
<u>LOCATION:</u>	35 Elizabeth Road, Field Lane Estate, Knowsley		
<u>PROPOSAL:</u>	ERECTION OF SINGLE STOREY SIDE / REAR EXTENSION		

Site Description

The host property is located at 35 Elizabeth Road, Knowsley and is allocated as a Primarily Residential Area in the development plan. The host property is a semi-detached dwellinghouse and is brick faced on the front elevation, with white UPVC doors and windows and a grey tiled roof.

Proposal

The application seeks permission for the erection of a single storey rear and side extension. The side extension would be set back 5m from the front original elevation of the dwellinghouse. It would have a width of 2.1m and a length of 3.1m. The side extension would then meet the rear extension, which would project a further 2.9m from the rear wall of the dwellinghouse and measures 5.1m in length along the rear wall. The roof is pitched, but with a shallower slope for the side and rear extension in contrast to the original roof. The roof would measure 2.6m at the eaves and 3m at its highest point.

Consultations

None Required.

Representations

This application has been publicised by letters sent to 6 neighbours. No representations have been received.

Planning History

No recorded planning history.

Relevant Policy

Paragraph 11 of the National Planning Policy Framework (NPPF) states that planning decisions should apply a presumption in favour of sustainable development. This means approving development proposals that accord with an up-to-date development plan without delay; or where the development plan is absent, silent or out of date planning permission should be granted unless the application of policies in the NPPF that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or any adverse

Knowsley Council

Regeneration and Economic Development Directorate.

Delegated Planning Report

impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the NPPF taken as a whole.

Paragraph 12 of the NPPF clarifies that the presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision making. Where a planning application conflicts with an up-to-date development plan, permission should not normally be granted. Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed.

The development plan in Knowsley comprises the Saved Policies of the Replacement Unitary Development Plan, the Core Strategy Local Plan and the Joint Waste Local Plan. The following policies are relevant to the determination of this application.

- **KNOWSLEY LOCAL PLAN: CORE STRATEGY**
- CS2 - Development Principles
- CS19 - Design Quality and Accessibility in New Development
- Saved Policies Knowsley Replacement Unitary Development Plan (Adopted June 2006)
- H5 - Development within Primarily Residential Areas
- H8 - Extensions and Alterations to Residential Properties

In addition, the Householder Development SPD (2016) is a material consideration for the purposes of this planning application and provides additional guidance in relation to householder development within Knowsley Borough.

Article 35 Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Assessment

Saved Policy H8 in the Replacement Unitary Development Plan states that proposals for extensions to dwellings will be permitted provided that:

- a) The proposals would not (due to their scale and massing) result in a disproportionate addition to the original dwelling
- b) The design and materials used would reflect those used on the original dwelling
- c) The proposal would not adversely affect the amenity or privacy of occupiers of adjacent dwellings
- d) The proposal would not create potential hazards for highway users by obstructing visibility for pedestrians or drivers of motor vehicles; and
- e) Adequate parking and garden space would remain in use by the residents of the extended property

Delegated Planning Report
Design

The Householder Development SPD states that single storey side extensions should be designed so that they preserve the street scene, protect light and privacy of neighbours and ensure that they provide sufficient parking spaces.

The Householder Development SPD states that rear extensions should be designed to avoid causing overshadowing, loss of outlook or loss of privacy to the neighbours, or appear unduly dominant to neighbours.

The existing dwelling is brick facing with white UPVC windows and tiled roofing. The proposed development would also be brick facing and include materials which are keeping with those found at the host property and has a pitched roof. The extension has an acceptable design and is in keeping with the requirements of Policy H8 and the Householder Development SPD.

Amenity

The Householder Development SPD states that extensions should not cause overshadowing, loss of outlook or loss of privacy to neighbours. It also states that a single storey rear extension located on or immediately adjacent to the party boundary with a neighbouring dwelling will normally be acceptable if it does not project more than 4m from the rear elevation of the existing dwelling. The rear extension will project 2.9m from the rear elevation, and therefore accord with the Householder Development SPD.

The Householder Development SPD states that single storey side extensions should be designed so that they preserve the street scene, protect light and privacy of neighbours and ensure that they provide sufficient parking spaces. The side extension will be set back 5m from the front elevation of the dwellinghouse, which will be utilised as a shower room, this is a non-habitable room but to maintain privacy the window on the front elevation of the side extension will be glazed with obscure glass.

37 Elizabeth Road

No.37 is the attached property of the host property and the existing rear elevations of both properties sit in line with the applicant site. The proposed rear extension would project 2.9m from the original rear elevation of no.35 and therefore accords with the Householder Development SPD and would not have an unacceptable impact on the amenity of no.37 occupants.

33 Elizabeth Road

No 33 is situated adjacent on the other side of the host property. The property benefits from a side extension running alongside the side elevation which faces the host property. The original front and rear walls of the property are in line with the applicant site. The proposed rear extension would project 2.9m from the original rear elevation of no.33 and therefore would not have an unacceptable impact on the amenity of no.33 and complies with the Householder Development SPD.

Delegated Planning Report
Highways

The property currently has one off street parking space which would not be affected by the proposed development. The space to the side of the dwelling is not wide enough for it to be counted towards the car parking provision. As such, the proposed development would not result in adverse impacts to the public highway.

Conclusion

The proposal would be acceptable in terms of design, residential amenity and highways. The proposal also complies with the relevant Core Strategy, Replacement UDP policies and guidance in the NPPF and is therefore recommended for approval subject to conditions.

Recommendation

- 1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2) The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

- 3) The materials to be used on the external surfaces of the extension hereby permitted shall match those of the existing building in type, size, colour and texture.

Reason: In the interests of visual amenity and to comply with Saved Policy H8 of the Knowsley Replacement Unitary Development Plan, adopted in June 2006, Policy CS19 of the Knowsley Local Plan Core Strategy, adopted January 2016, and the National Planning Policy Framework.

SCHEDULE 1
