

Front and side faces of shop dividing walls to be clad in mosaic tile to match existing where missing

New aluminium shopfront by specialist

Dotted line indicating position of electrically operated roller shutter above in ceiling space. See section

Make good to existing suspended ceiling and grid following installation of roller shutter

Spaces between stall riser and back of pavement to receive block paving to match the existing size and colour. All recesses to have a slight outward fall to pavement

One downlighter recessed into soffit centrally above entrance doors

No work to the remainder of the ground floor area other than the new shop fronts as described above.
