ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.
- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

2 Works within the Highway

It is an offence under the Highways Act 1980 to carry out any works within the public highway without the written consent of the Highway Authority. Planning permission does not grant consent. Any off-site highway work must be delivered through legal agreements under Sections 38 and/or 278 of the Highways Act 1980. Early engagement is required.

Travel Plan Monitoring Fee

The applicant is advised that the Council applies a charge for assessing and monitoring Residential Travel Plans in accordance with the published Fees and Charges Schedule. The applicant should contact the Local Highway Authority at the earliest opportunity to confirm the applicable fee and payment arrangements.

Off-site Works and Discharge of Conditions

Any off-site highway works required by planning condition must be secured via a Section 278 agreement with Knowsley Council as Highway Authority. Discharge of planning conditions does not remove the developer's obligation to ensure that designs meet all technical, safety, and adoption requirements under the Highways Act 1980.

Where the Section 278 or S38 technical approval process results in revisions to the works approved under planning conditions, the developer must submit these revisions to the Local Planning Authority for approval as a Non-Material Amendment (or minor material amendment where appropriate). This ensures that the development delivered remains consistent with the approved planning permission and meets all legal and technical standards.

This ensures works are deliverable, safe, and enforceable prior to occupation, in accordance with NPPF paragraph 110 and Policy CS19 of the Knowsley Local Plan: Core Strategy (adopted January 2016).

Streetworks and Utility Coordination

The developer must coordinate statutory undertakers works within Knowsley with Knowsley Council's Streetworks Team to minimise disruption to highway users. A programme of implementation must be agreed, with works planned to reduce impact.

Contact: Knowsley's NRSWA Team - NRSWA.TeamDRES@knowsley.gov.uk

Highway Condition Survey

Prior to the commencement of development, a joint inspection of the condition of the surrounding carriageways and footways should be undertaken with Knowsley Council. Any damage arising from construction works will be the responsibility of the developer to repair.

Site Cleanliness and Highway Protection

The developer is reminded that under Sections 131, 148 and 149 of the Highways Act 1980 it is an offence to deposit mud, debris or materials onto the highway, or to damage the road surface. Appropriate wheel washing and site management measures must be in place throughout construction. The Highway Authority will recover costs for any necessary cleansing or repairs and may prosecute persistent offenders.

Street Lighting, Traffic Signs and Traffic Signals Maintenance

Any new street lighting, traffic signal and traffic signs to be installed on the existing public highway or highway proposed for adoption will be subject to a commuted sum to cover its future maintenance as part of the Council's Street Lighting and Signing PFI Contract. Installation must be undertaken or agreed in advance with the relevant PFI Service Provider and approved in writing by the Highway Authority.

DRAFT

IMPORTANT NOTES FOR YOUR ATTENTION:

1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.
2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.
3. You should ensure that you understand the requirements of all planning conditions and that you fully comply with their requirements. If you are in any doubt about what a condition requires of you, please ask us for assistance. Planning conditions may require you to submit further information to us and await our approval before you can start your development. A failure to do so could result in your development being unlawful and necessitate the submission of a further planning application. A failure to comply with the conditions of the permission/consent may result in the taking of enforcement and potentially legal action, against you to remedy the breach of planning control.
4. A fee is normally payable to discharge planning conditions in accordance with government regulations.
5. This permission does not convey any rights or approval to build on, or develop, any land that is not fully owned or controlled by you, including on party boundaries. You should satisfy yourself that the agreement of any adjoining landowners has been given prior to commencing any building works.
6. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works. Knowsley Council's Building Control team are contactable on (0151)-443 2342 and they would be pleased to assist you.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
