Attachments: Ultraflex_Liquid_Waterproofing_System_BBA.pdf

Morning Kate

Thank you for your E-mail. Please see my responses to the comments below.

2) Can clarify that it is the brick version which is submitted for consideration. Apologies for the confusion, I included the GRP version purely for information as it is the one that is currently approved from when we originally discharged the condition. Please can you withdraw Drg P1007 from the application.

3) The doors and louvres will be Anthracite RAL 7016

4) Roof colour will be a dark grey Liquid Waterproofing system. This is basically a built up layered membrane type flat finish. I have attached a BBA certificate which has some photos which might be helpful.

Trust this clarifies your queries but do not hesitate to let me know if you require anything further.

Regards.

Subject: 22/00099/COND5 - Condition 6 (substations)

Good morning, Ian

Please find below the comments received from the original planning officer regarding the discharge of condition 6. Further information is required:

1. There are two different plans submitted which is confusing. One showing a GRP - Green sub sta. and one a brick substation .
2. Please clarify which is submitted for consideration. (I assume it's the brick version- in which case please withdraw Drg P1007.)
3. Colour finish of doors louvres required .
4. Roof colour finish required

Please provide the required information at your earliest convenience and within the next ten working days.

If you have any questions, don't hesitate to get in touch.

Kind regards
Kate Pickles (She/Her)
