Details of the pre-application advice received

Advice was sought to establish whether this application could be part of a S73 application to 20/00020/FUL relating to consent APP/V4305/W/21/3272780. This was answered after the S73 was submitted, requiring the amendment of that application and the submission of this application.

A query was also raised relating to what supplementary and supporting documents and reports would be required, beyond those already included in the application for the larger scheme. This was still awaiting reply at the point of submission of this application.
