

Materials prohibited from use, except where used in accordance with 'Good Practice in the Selection of Construction Materials (March 2011)' or unless required by the Contract:

- (a) high alkaline cement in the structural elements;
 - (b) wood used as a permanent formwork to concrete;
 - (c) asbestos or asbestos containing materials, as defined in the 'Control of Asbestos Regulations 2006' (SI 2006/2732) or any other similar legislation or re-enclosed therefrom;
 - (d) any naturally occurring or man made mineral fibres (for example, rock wool, mineral wool, vermiculite, asbestos) which are known to be a health hazard, unless they are appropriately sealed to prevent migration of fibres, or are otherwise covered by a specific exemption under the 'Control of Asbestos Regulations 2006' (SI 2006/2732) or any other similar legislation or re-enclosed therefrom;
 - (e) BS EN 12607-2002: Properties of aggregates used in concrete;
 - (f) BS EN 12609-2002: Properties of aggregates used in mortar;
 - (g) BS EN 12609-2002: Properties of aggregates used in concrete;
 - (h) substances on avoiding silica dust reactions and limitations on alkali content in concrete (see 10.2.1.1);
 - (i) load, dead point and any other materials containing lead which may be ingested, inhaled or absorbed, or which may be in contact with the skin, or which are specifically required in drinking water pipework by any relevant statutory requirement or where lead flashings or other lead roof coverings are specifically required by any relevant statutory requirement;
 - (j) any formwork/shale form or materials which may release formworkshale in any form which is a health hazard with reference to the limits set by the Health and Safety Executive;
 - (k) calcium silicate bricks or tiles;
 - (l) calcium silicate bricks or tiles, which may also be free fibre, calcium silicate bricks or tiles;
 - (m) any substances containing cadmium referred to in Statutory Instrument (SI) 2006/3133: Control on dangerous substances and preparations Regulations 1999. Reference should also be made to BS EN 62331: Cadmium and 'pigments';
 - (n) any substances containing lead referred to in Statutory Instrument (SI) 2006/3133: Control on dangerous substances and preparations Regulations 1999;
 - (o) non polymerised mild steel structural frames for building elements particularly in the form of precast concrete panels;
 - (p) concrete used in circumstances where it is susceptible to alkali/silica reaction, or where it is susceptible to sulphate attack;
 - (q) any other materials not covered by the above, where test results are unavailable for assessment;
 - (r) any other materials not covered by the above, where test results are unavailable for assessment.
- These materials must not be in accordance with statutory requirements, British Standards, Codes of Practice and good building practice current at the date of issue of the relevant materials into the works or the specifications therefor.

1no. 3b6p Semi-Detached House

Plot 05 - approx 152sqm/1640sqft

Project
Land at Woodend, Netherley Road, Tarbock Green,
Prescot L35 1QE

Title	Plots 04&05 Farmstead East - Proposed Plans & Elevations
