

Horse Friendly Vehicle Barrier

Metal, heavy duty, horse friendly vehicle barrier gate, designed specifically for bridleways allowing the safe passage of riders whilst excluding unauthorised vehicular access.

Gate design features a 1.2m/1.5m wide step, clad with timber to reduce noise from hoof impact.

Hanging post with inverted top hook, slamming post with padlock-secure box to prevent theft and vandalism, posts with anchor plates.

Barrier constructed using 100x50mm steel box section, posts constructed using 120x120mm or 150x150mm steel box section. Hot-dipped galvanised for longevity.

Anti-tamper galvanised fixings throughout.

Bespoke sizes, hold-back posts and polyester powder coating finish available to order.

- Gate leaf widths: 3.0m, 3.6m, 4.2m, 4.8m
