Dear Sir or Madam

SUBMISSION TO DISCHARGE CONDITION 15 OF PLANNING PERMISSION 23/02008/FUL FOR THE PROPOSED DEVELOPMENT OF A BATTERY STORAGE FACILITY AND ASSOCIATED INFRASTRUCTURE, LAND AT COOPERS LANE, KNOWSLEY INDUSTRIAL PARK, KIRKBY, KNOWSLEY, L33 7TT

I write, on behalf of Pelagic Energy (the applicant), to submit details to discharge planning condition 15 of planning permission 23/02008/FUL at the above location.

This application has been submitted electronically via the Planning Portal (reference: PP-14055828) and comprises:

- This covering letter;
- Application fee of £383.00, which includes the £85 Planning Portal handling fee (paid online).

Planning permission 23/02008/FUL was granted on 30th April 2024. For avoidance of doubt, Condition 15 is copied below.

Condition 15

Notwithstanding any description of materials in the application, no above ground construction works shall take place until samples and / or full specification of materials to be used externally have been submitted to and approved in writing by the Local Planning Authority. Such details shall include the type and colour of the materials. The development shall be carried out only in accordance with the agreed schedule of materials.

A description of the materials used in the main components of the battery energy storage system (BESS) facility has been set out below, along with illustrative pictures.

T: 0344 8700 007

www.axis.co.uk

BESS Containers

The BESS Containers will have a metal external finish and be RAL 9003 in colour. See image below.

Inverter-Transformer Station

The Inverter-Transformers will have a metal external finish and be RAL 9003 in colour. See image below.

Auxiliary Transformer

The Auxiliary Transformer will have a metal external finish and have a grey colour finish. See image below.

Switchgear Building and Control Room

The Switchgear Control Room is shown below and will be RAL 9003 and have a metal external finish. The Switchgear Building itself (image not available) is anticipated to be the similar in colour and finish, albeit it will be slightly larger in size.

Lighting Columns

The lighting columns within the BESS site will have a metal finish, both in terms of material and colour.

Security Fencing and Gates

The perimeter security fencing and gates for the BESS site will be metal weldmesh, either RAL 9003 or metal colour in finish.

I trust the contents of this submission satisfies the requirements of the condition. If you have any queries regarding this submission or require any further information, please do not hesitate to contact the undersigned.

Yours faithfully,

Jonathan Maginness
