CAR SHARING

Car sharing is an effective means of reducing the number of cars on the road, especially for commuting trips to work

One of the most popular services is Liftshare (more information can be found on their website)

Car sharers do not need to work for the same company, or even be based in the same building. The car share scheme matches up car drivers and passengers who travel at similar times... and it's completely free!

ECO DRIVING

Although driving a car is the least sustainable choice of travel, sometimes it's a necessity, so here are 7 eco-driving tips that can really make a difference:

1. Service your car regularly to maintain engine efficiency.
2. Check your tyre pressures regularly (and before long journeys), under-inflated tyre's use more fuel as they increase rolling resistance.
3. Lose any unnecessary baggage, extra weight means extra fuel.
4. Combine short trips, cold starts use more fuel, so it pays to combine your errands.
5. Drive Smoothly, accelerate gently and read the road ahead to avoid unnecessary braking.
6. Cut down on the air-con, air-conditioning increases fuel consumption at low speeds (the effects are less noticeable at higher speeds)
7. Stick to the speed limits, the faster you go the greater the fuel consumption (cruising at 70mph uses up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph)

Look down the left hand column for your departure station. Read across until you find a suitable departure time. Read down the column to find the arrival time at your destination. Through services are shown in bold type (this means you won't have to change trains). Connecting services are shown in light type. If you travel on a connecting service, change at the next station shown in bold or if you arrive on a connecting service, change at the last station shown in bold, unless a footnote advises otherwise.

Minimum connection times

All stations have a minimum connection time of 5 minutes unless stated. Liverpool Lime Street and Manchester Piccadilly 10 minutes.

Community Rail Partnerships and community groups

We support a number of active community rail partnerships (CRPs) across our network. CRPs bring together local communities and the rail industry to deliver benefits to both, and encourage use of the lines they represent.

Some stations on this route are adopted by local community groups. For more information visit **northernrailway.co.uk/community**
