

Project Name :	Glen Dimplex
Project Number:	430
Week Commencing:	
Location:	

Air Quality, Odour & Noise Observations

Day:	Time:	Weather:	Wind: direction/speed	Wind Gust: speed	Temperature	Location	Dust Observations/Comments:	PM2.5 (ug/m³)	PM10 (ug/m³)	Noise Monitoring: (dB)	Time:	Odour: (Strength x offensiveness)	Name of Assessor	Action Taken:
Monday	08:00										08:00 - 10:00			
	12:00										12:00 - 14:30			
	16:00										15:30 - 17:30			
Tuesday	08:00										08:00 - 10:00			
	12:00										12:00 - 14:30			
	16:00										15:30 - 17:30			
Wednesday	08:00										08:00 - 10:00			
	12:00										12:00 - 14:30			
	16:00										15:30 - 17:30			
Thursday	08:00										08:00 - 10:00			
	12:00										12:00 - 14:30			
	16:00										15:30 - 17:30			
Friday	08:00										08:00 - 10:00			
	12:00										12:00 - 14:30			
											15:30 - 17:30			

Intensity	Extent:	Sensitivity of location
Non Detectable	None	Remote (greater than 500m from any receptor)
Faint	Transient and localised, all within site boundary	Low sensitivity (within 500m of industrial receptors)
Moderate	Persistent and localised, all within site boundary	Moderate sensitivity (within 500m of residential receptors)
Significant	Persistent and pervasive, extends beyond site boundary	High sensitivity (within 100m of residential receptors)
Very Significant	Persistent and widespread, extends beyond site boundary	Extra sensitive (complaints from housing)
