

PRELIMINARY PROPOSED DRAINAGE STRATEGY PLAN

- LEGEND**
-  Site Extent
 - Existing Drainage Features**
 -  Main River
 -  Ordinary Watercourse
 -  Ponds
 - Existing Sewer Network**
 -  Public Foul Water Sewer
 -  Public Surface Water Sewer
 -  Private Surface Water Sewer
 -  Public Combined Water Sewer
 -  Public Overflow Sewer
 -  Existing SW Connection (assumed)
 - Proposed Drainage Connections**
 - Opt.1: Surface Water to Ground**
 -  Soakaways
 -  Permeable Surfacing
 - Opt.2: Surface Water to Watercourse**
 -  Connection to River Alt
 -  Tee/Land Drainage Proposed
 -  Foul Water to Public Sewer

FURTHER NOTES:
This drawing is not a drainage 'design' it is a preliminary drainage strategy showing indicative sewer locations. No hydraulic simulation or assessment of these proposals has been undertaken. Proposed points of connection to the existing culverts require invert levels to be accurately established. Surcharging of the proposed outfall will require modelling to satisfy the requirements of united utilities along with full hydraulic analysis.
