GENERATION AND ECONOMIC DEVELOPMENT

DEPARTMENT

TOWN AND COUNTRY PLANNING ACT 1990

PLANNING PERMISSION

Application No: 23/02149/FUL

Name and address of applicant

Mr Kabir Sharif
Suite 1, Goodlass House
Goodlass Road
Liverpool
L24 9HJ

Name and address of agent

Aldrock Surveyors Ltd.
Unit 5 Cunningham Court
Shadsworth Business Park
Lions Drive
Blackburn
BB1 2QX

Date of Receipt: 2 August 2023

Date Valid: 4 August 2023

Address/Location Of Development:

Land At Chapel Street
Prescot
Knowsley

Description of Development:

ERECTION OF 5 NO. APARTMENTS

The Council of the Metropolitan Borough of Knowsley hereby give notice in pursuance of the above Act(s) that Planning Permission has been **granted** for the carrying out of the development referred to above in accordance with the application and plans submitted subject to the following condition(s):

1. The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the following approved plans and documents:-
 - a. Proposed Elevations - AN48 -002 -Rev D - (Received 26/04/2024).
 - b. Existing and Proposed Plans - AN48 -001 -Rev D - (Received 31/05/2024).

Reason: For the avoidance of doubt.

3. Prior to commencement of development a Construction Management Plan shall be submitted to and agreed in writing by the Local Planning Authority that details the means of mitigation of construction effects. This shall include but not be limited to the following:
 - a. Layout of the site compound including identification of areas for the storage of plant and materials, loading/unloading and turning areas for delivery vehicles [for each phase as necessary].
 - b. Management of deliveries including prevention of waiting/layover of construction related traffic on the highway, measures for the control of traffic to and from the site and consideration of any temporary traffic management arrangements which may be necessary during periods of construction. Note reversing on the highway is not permitted without a trained Banksman (RoSPA or equivalent)
 - c. Construction staff parking arrangements
 - d. Control of transfer of mud out of the site - details of wheel washing facilities including location and type.
 - e. Methods for dust control and suppression.
 - f. A programme of works including phasing, if applicable.
 - g. Adequate provision for addressing any abnormal wear and tear to the highway, if applicable.
 - h. The location in a pedestrianised area subject to vehicular access restrictions from 10am - 5pm.
 - i. Details of relevant pest control measures that will be in place, or will be put in place, should evidence of pests become apparent during the construction works.

All site works shall then be carried out in accordance with the approved Plan unless otherwise agreed in writing beforehand with the Local Planning Authority

Reason: To ensure the satisfactory development of the site and in the interests of protecting the amenity of neighbouring occupiers and to comply with saved Policies H5, and ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006 and Policy CS2 of the Core Strategy, adopted January 2016.

4. No development shall take place until an assessment of the risks posed by any contamination has been submitted to, and approved in writing by, the Local Planning Authority.

The assessment must be undertaken by a suitably qualified contaminated land practitioner, in accordance with authoritative guidance (CLR 11), and shall assess any contamination on the site, whether or not it originates on the site.

Moreover, it must include (were relevant):

- (i) a survey of the extent, scale and nature of contamination.
- (ii) an assessment of the potential risks to:

- human health,
- property (existing or proposed) including buildings, crops, livestock, pets, woodland and
- service lines and pipes,
- adjoining land,
- groundwaters and surface waters,
- ecological systems,
- archaeological sites and ancient monuments.

B. Submission of Remediation Scheme

Where land affected by contamination is found which poses unacceptable risks, no development shall take place until a detailed remediation scheme has been submitted to and approved in writing by the Local Planning Authority. The scheme must include an appraisal of remediation options, identification of the preferred option(s), the proposed remediation objectives and remediation criteria, and a description and programme of the works to be undertaken including the verification plan. As a minimum, the scheme must ensure that the site will not qualify as contaminated land under Part 2A of the Environmental Protection Act 1990 in relation to its intended use.

C. Implementation of Approved Remediation Scheme

The approved remediation scheme shall be implemented, and a verification report submitted to and approved in writing by the Local Planning Authority, prior to the development (or relevant phase of development) being brought into use.

D. Reporting of Unexpected Contamination

In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported immediately to the Local Planning Authority. Development on the part of the site affected must be halted and a risk assessment carried out and submitted to and approved in writing by the Local Planning Authority. Where unacceptable risks are found remediation and verification schemes shall be submitted to and approved in writing by the Local Planning Authority. These shall be implemented prior to the development (or relevant phase of development) being brought into use.

E. Materials Management Plan

Prior to the reuse of site won materials ('waste' and non-waste) a Materials Management Plan, signed off by a Qualified Person, shall be submitted to and agreed in writing with the local planning authority. The MMP shall demonstrate that any reuse of contaminated materials does not result in increased risk to the environment or human health.

F. Importation of Soil/Material

No soil is to be imported to the site until it has been tested for contamination and assessed for its suitability for the proposed development; a suitable methodology for testing this material should be submitted to and agreed by the Local Planning Authority prior to the soils being imported onto site. The methodology should include the sampling frequency, testing schedules, criteria against which the analytical results will be assessed (as determined by the risk assessment) and source material information. The analysis shall then be carried out and evidence submitted to and approved in writing to by the Local Planning Authority.

Reason: In order to prevent harm to human health from contamination.

5. No development or demolition shall take place until the applicant or their agents, has secured the implementation and submission of a report on a programme of archaeological works. That programme of archaeological works should be undertaken in accordance with a Project Design which has been submitted to and approved in writing by the local planning authority prior to works taking place. The Project Design must include the following five steps:

- A phased programme and methodology of site investigation and recording;
- A programme for post-investigation reporting to include production of a final report of the significance of the below-ground archaeological interest;
- Provision for appropriate publication and dissemination of the archaeology and history of the site;
- Provision for archive deposition of the report, finds and records of the site investigation; and
- Nomination of a competent person or persons / organisation to undertake the works set out within the approved Project Design.

Reason: In order to record any undiscovered archaeological features.

6. No above ground development hereby permitted shall be commenced until a scheme has been submitted to and approved in writing by the local planning authority detailing how the smoke and odour from the surrounding businesses will be controlled to prevent future residents of the development being effected.

Reason in order to protect future residents from odour.

7. No above ground development shall commence until;
 - a. a scheme of intrusive investigations has been carried out on site to establish the risks posed to the development by past shallow coal mining activity; and
 - b. any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is made safe and stable for the development proposed. The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

Reason: In order to address coal issues and reduce subsidence and other problems.

8. Prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

Reason: In order to address coal issues and reduce subsidence and other problems.

9. The proposed development shall not be brought into use until precise scheme detail of the proposed cycle storage highlighted on Drawing 001 Rev C has been submitted to and approved in writing by the Council as Local Planning Authority. The scheme shall be implemented as agreed before any part of the development has been brought into use. For the avoidance of doubt, long stay cycle parking must be covered and offer a means to secure the frames of individual cycles.

Reason: To ensure that adequate provision is made for parking cycles securely and to comply with Policy CS7 of the Core Strategy, adopted January 2016

10. The mitigation outlined in the following report is agreed.

Before the development is occupied a noise mitigation review is due to be undertaken to determine the correct mitigation proposed as detailed in section 8.6 of the report. This is to be submitted to and approved in writing by the local planning authority.

The scheme shall be based on the findings of an approved noise survey. All works which form part of the scheme shall be completed before any of the relevant dwellings are occupied and retained at all times thereafter. Evidence of the agreed measures shall be submitted to the local planning authority prior to occupation of the properties.

The scheme shall ensure that noise exposure within living rooms and bedrooms and gardens does not exceed the relevant standards. Where windows are required to be kept closed to meet the indoor noise levels then an alternative means of ventilation shall be provided.

Reason: In order to prevent harmful noise levels.

11. The materials used for all external surfaces shall be those specified in the listings key of drawing AN48 -002-Rev D - (Received 26/04/2024). All materials shall be retained as such hereafter.

Reason: In order to avoid harm to heritage.

12. No dwelling hereby approved shall be occupied until a full fibre broadband connection has been installed and made available for use.

Reason: To support economic growth in accordance with NPPF Para 119.

REASON(S) FOR THE GRANTING OF PLANNING PERMISSION

The decision to grant planning permission has also been taken having regard to the policies and proposals as set out below, and to all relevant material considerations including supplementary planning guidance:-

KNOWSLEY LOCAL PLAN: CORE STRATEGY

CS2 - Development Principles

CS7 - Transport Networks

CS14 - Principal Regeneration Area - Prescott TC

CS19 - Design Quality and Accessibility in New Development

CS20 - Managing the Borough's Historic Environment

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

DQ5 - Development in Conservation Areas

This informative is only intended as a summary of the reason(s) for the granting of planning permission. Should you require any further details relating to the decision please contact the relevant case officer (Andrew Hunt on 0151 443 2204)

ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.
- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

Informative

1. The applicant is reminded that future residents are not entitled to any car parking provision within local Council Owned facilities as part of the development and that the Council will not support any application for a parking permit for residents of the property.

The relocation of existing street lighting columns on the adopted highway would need to be funded by the developer and dealt with as part of the S38/S278 highway agreement. The works will need to be undertaken/agreed by the Street Lighting and Signing PFI Contract Service Provider. The applicant is advised contact SiteDevelopment@knowsley.gov.uk

The grant of planning permission does not authorise the erection of scaffolding, hoardings or any other device or apparatus on the highway. A license should be sought from the Council as Local Highways Authority. Contact Shirley Matthews, t: 0151 443 3034, email: Shirley.matthews@knowsley.gov.uk to discuss the matter further.

2. Under the Coal Industry Act 1994 any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) require the prior written permission of the Coal Authority since these activities can have serious public health and safety implications. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain permission to enter or disturb our property will result in the potential for court action. Application forms for Coal Authority permission and further guidance can be obtained from The Coal Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property
3. In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

A handwritten signature in black ink, appearing to read 'Dubon'.

Executive Director - Regeneration and Economic Development

Date: 20 August 2024

IMPORTANT NOTES FOR YOUR ATTENTION:

1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.
2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.
3. You should ensure that you understand the requirements of all planning conditions and that you fully comply with their requirements. If you are in any doubt about what a condition requires of you, please ask us for assistance. Planning conditions may require you to submit further information to us and await our approval before you can start your development. A failure to do so could result in your development being unlawful and necessitate the submission of a further planning application. A failure to comply with the conditions of the permission/consent may result in the taking of enforcement and potentially legal action, against you to remedy the breach of planning control.
4. A fee is normally payable to discharge planning conditions in accordance with government regulations.
5. This permission does not convey any rights or approval to build on, or develop, any land that is not fully owned or controlled by you, including on party boundaries. You should satisfy yourself that the agreement of any adjoining landowners has been given prior to commencing any building works.
6. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works. Knowsley Council's Building Control team are contactable on (0151)-443 2342 and they would be pleased to assist you.

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- As this is a decision for a minor commercial application, if you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
