

20.01.2022

Cover Letter

The barn was approved in full reference 21/00165/FUL in April 2021.

It was constructed a few weeks later and finished in July 2021.

There was a false allegation lodged by an immediate neighbour of Dragon House Farm in May 2021 stating that the barn was not being used appropriately.

Liz Wright from the planning enforcement department attended Dragon Farm to check that the building was being used as the permission intended on 30.05.2022. She agreed via email on the same day that she was happy that the barn was being used appropriately.

The removal of Condition 5 is now being applied for so the storage barn can stay permanently.

Pictures can be provided if necessary.
