Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

External alterations to Cockpit House

Following a detailed condition survey completed in April 2020 external works. These external works to Grade 2 listed Cockpit House include repairs to the existing masonry, windows, doors, timber and leadwork.

Summary of proposed External works

Alterations to Masonry

The remove of cementitious overpointing and repair with lime mortar beneath to match existing. Loose mortar is to be raked out with an allowance for 30%

replacement of bricks with new to match existing. Modern brickwork is to be removed and replacement with age appropriate brickwork with lime mortar.

Masonry paint to be removed and repainted with breathable paint. Sandstone is to be brushed down to remove friable surface and moss growth. Joints to be repointed with lime mortar

Timber Repairs

Decorative timber is to be replaced/splice repaired with matching profile.

Windows and Doors

Windows beyond repair are to be replaced with new matching windows. Where historic windows can be repaired, damaged sections to be replaced with new matching timber matching grain as necessary. Damaged glass is to be replaced with matching thickness. Existing sash window frame and glazing to be replaced and upgraded to provide better acoustic and security measures. Existing features such as internal shutters and metal bars to be retained. All ironmongery to be removed for reuse where possible. Staff and parting beads to be removed along with sash. Weights are to be removed and marked with relevant window number and set aside for reuse. Broken or decayed putty to be removed and replaced following the priming of bare timber exposed by removal of putty. Any damaged glass is to be replaced with matching thickness to sample approved by architect. Local pockets of decay to sashes and to frames to be removed and made good using proprietary timber repair filler. Existing architraves, internal shutters, window surround and cill are to be repaired/ replaced as necessary.

The intention is to achieve a high quality finish to match the new windows. Sashes and box to be decorated and reassembled. staff and parting beads to be replaced with new profile of original and in matching timber.

Lead Repairs

Existing flashing to be replaced with new code 6 lead flashings, copings, abutments etc
