

**Prosper Care Services Northwest Ltd Application is for the change of use from Dwellinghouse (Use Class C3) to a Children's Residential Home (Use Class C2)
Planning Application Reference No 24/00475/FUL**

Community Impact Letter

Prosper Care Services Northwest Ltd are proposing to register a children's home and have submitted a full planning application for the proposed home.

One of the main considerations for the planning application is the potential impact on the local community. There is a common stigma and prejudice associated with children's homes that perpetuate this misconception that children's homes can have an impact on communities. It is acknowledged there are a small number of providers of children's homes that lack of experience in the operations and management of high-quality services; fortunately, this is a rare occurrence from inexperienced children's homes care providers.

Prosper Care Senior Leaders and Directors have many years' experience operating children's homes to an exceptional standard. Prosper Care has robust practice, policies, and procedures to ensure there is a well-managed children's home.

Prosper Care has robust and rigorous assessment criteria for the consideration and admission of any child that is considered appropriate for the home. This practice is to ensure there are no known risks or concerns that would impact on the local community. Furthermore, Prosper Care has robust procedures to act, without delay, in response to any emerging concerns to ensure the proposed children's home maintains the harmony of the neighbourhood and community.

Prosper Care will be staffed by dedicated professionals who work tirelessly to create a positive and supportive environment. By integrating these homes into our communities, we have an opportunity to teach empathy, compassion, and acceptance to our own children, fostering a more inclusive society.

The proposed children's home will be registered and regulated by the regulatory body Ofsted in line with the requirements under the Care Standards Act 2000 and Children's Home Regulations 2015.

We will build strong meaningful relationships with our neighbours and the local community. We envisage any child living at the home will have no significant impact on the local community and will be consistent with a typical small family living in a residential community. In the unlikely event of any concerns arising, we will follow our internal management procedures and noise management plans steps to resolve concerns without delay.

Kind Regards
Cheryl Stewart
Operations Manager
