Attachments: Halewood LUF CCTV Heat Map V5 - Oct 26.pdf

Hi Kate,

Please find attached an updated CCTV Heat Map Plan prepared by KMBC's Security Team.

Daniel, who produced the plan, has advised that, due to software limitations, the level of detail shown on the attached drawing is the maximum that can be provided by KMBC. The attached plan has been amended to include a key for the field of view and locations of camera columns.

In addition, Daniel has provided clarification in response to Mark's further queries below.

In relation to camera coverage, Daniel has reinforced that this is a Council-led project, and the CCTV system will be owned and operated by the local authority. The Council has the authority to install and monitor CCTV within public spaces where there is a lawful and legitimate purpose for doing so and, therefore, does not require permission to provide coverage of these areas.

The primary purpose of the system is to monitor the application site, its entrances, and the surrounding public areas. Daniel has noted whilst every effort will be made to minimise unnecessary coverage of private property, it is recognised that some incidental capture of neighbouring premises may occur. Where this arises, property owners may request the application of privacy masking, Daniel has confirmed this can be arranged directly through him following installation.

The majority of the cameras will be accessible to authorised Leisure Centre staff for the purposes of site management and security. However, any cameras specifically covering public spaces beyond the site boundary will only be accessible by authorised Knowsley

Security personnel. Access to all footage will be managed in accordance with the Council's CCTV policies and relevant data protection requirements.

Kind Regards,

Abi

Subject: 25/00182/COND1 - Condition 13 (CCTV)

Hi Abi

I hope you are well.

The original planning officer has provided the following comments regarding condition 13 (CCTV). Some additional information is required.

1. The conditions requests for details of the cameras (design / colour finish) etc. and details of the field of view.

To be honest I am not really sure what the submitted plan is as there is no key. It may well be indicating the field of view but its unclear from the drawing.

To satisfy the condition I would require details of the cameras and housing and confirmation they are being installed on existing columns (otherwise I need details of the proposed columns) and the height the camera is being installed. I also need a plan showing the field of view of each camera to ensure it does not include any of the neighbouring dwellings and just covers the app site and entrances etc.

Please provide the necessary plans and information at your earliest convenience and within 10 working days.

If you have any questions, don't hesitate to get in touch.

Kind regards

Kate Pickles (She/Her)
