Please Select PPE Required

Safety Boots	Hard Hat	Hi Vis
		Gloves

Please detail any other PPE

ACTION REQUIRED ON:

Please details Action Areas

Housekeeping

Infestation Found

Please detail areas infestation found

No Infestation Found

Treatment Report

Describe the work conducted

I have today carried out a survey for rodents at the above site, no live activity was found at the time of my inspection, however speaking to dog walkers and local passers by they said that they often see rodents on the land, this has to be expected being close to the river Alt and the overgrowth on the fields. There is also small amounts of rubbish on the land. I would suggest safely installing metal bait boxes staked into the ground and then serviced on a weekly basis.

Materials used
