Good afternoon Mark,

Please find attached the amended location plan with only one red line and the amended site layout showing existing and proposed sites on the one drawing.

If you need these separating into two documents, please let me know and I will make arrangements for that.

Kind regards,

**Helen Bolam**

**Importance:** High

Hi Helen

I refer to the above planning application and can provide the following comments:-

1. Given that there is an existing and proposed site the plans submitted are a little confusing . To ensure it is absolutely clear could you please amend the location plan to show just one red line encompassing the existing and proposed site and the verge in between.
2. Could you please provide a site layout drawing showing both the existing and proposed sites on the one drawing.
3. Is there any scope for the proposed installation to be moved any closer to the existing site ( i.e. located further from the nearest residential dwellings) *From our reading of the plans the existing site is to the south and proposed site to the north.*
4. Precisely when would the existing installation be removed. Presumably this would stay until the proposed installation has been completed? How long after will the existing site be removed and please confirm that the grass verge would be re-instated.

Regards

Mark Quinn
