

External Signage

Stack Sign - 1st Phase 'Coming Soon'

Our 1st Phase 'Coming Soon' stack should be installed in the early stages of our build process and if possible, before works on site begin. This communicates our brand and future development to the public and helps build excitement and momentum, driving potential buyers to our website and sales teams.

The purple 'coming soon' strip can be replaced with a 'Now selling from' message (still in purple). This can then be removed and replaced with a grey panel with the web address once the site is live. The 'land required' panel can also be removed once the site is live.

Location

To be positioned at the front of our developments for maximum impact and ideally where this will be used in the future to prevent re-locating.

Production details

- 2000 x 3200mm 3mm aluminium composite sign
- Self adhesive graphics applied to the face
- Fixed to horizontal supporting arms
- 2000 x 300mm additional contact signs
