Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Principle of Development

The site is located within Prescot Town Centre.

The site is suitable in principle for housing.

Heritage

The site is within the Prescot Town Centre Conservation Area.

The height, form and massing of the proposed building is considered to be acceptable.

A Heritage Statement is required to explain the design principles and concepts that have been applied to the development, and demonstrate how the proposed development's context and relevant planning policies have influenced the approach to design.

Living conditions of future occupiers

The application appears to comply with national minimum space standards. Any reduction below these standards would not be acceptable.

The application complies with minimum space standards.

The position of windows is not shown, however, it is considered that windows could be arranged to ensure adequate light and outlook to main habitable rooms.

Any planning application would need to ensure sufficient light and outlook for main habitable rooms.

In relation to amenity space, this appears to be below standards.

It is recommended to try to incorporate some amenity space at the rear although it is acknowledged that it will not be possible to meet the full standards. A reduction in amenity space is considered acceptable due to the town centre location if the amount of amenity space is maximised.

No bin storage areas, are provided and these will be required.

Areas for bin storage are required to be shown in any application, including how these will be moved to and from the public pavement for bin collection.

There is a black flue at the rear of the site on the adjacent building which may affected future amenity in the form of odours and smells etc.

A noise and odour assessment will be required to be submitted. The council's Environmental Health team will review any noise and odour issues at application stage.

Impact on Neighbouring properties

The impact on neighbours will need to be considered. There is a window directly opposite the site. It is unclear if any other windows serve this room, although this is a church building so would not be a main habitable room window.

The impact on the access door to the adjacent building to the north east of the site should be considered.

Highways

It would not be feasible to have parking at the site due to its town centre location. However, cycle parking space should be provided.

It is recommended to have a minimum of 1 cycle space per unit so at least 5 cycle parking spaces.

Contamination

There may be contamination associated with previous uses. Therefore, contamination surveys may be required. A phase 1 desktop contamination survey is recommended as a minimum. The council's environmental health team would be consulted on any application.

Appropriate contamination surveys may be required as part of a planning application.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff**
- (b) an elected member**
- (c) related to a member of staff**
- (d) related to an elected member**

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

☐ Yes

☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

☒ Yes

☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

☐ Yes

☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
