

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

Biodiversity Units generated on-site from landscaped green infrastructure which shall be created equates to 0.36 BU (2 d.p). This is in addition to 0.14 hedgerow units from hedgerow creation.

Baseline BU on-site comes to 0.29 BU (2.dp) with no watercourse units.

4.8 If yes, tell us about the significant on-site enhancements

Include the appropriate planning condition or how you've secured the habitat.

Areas of new habitat contribute to the gain significantly on-site, although do not require a HMMP as these are within the confines and adjacent to garden.
