Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

We propose to open an Ofsted registered 2 bed childrens residential care home. We currently own and operate 6 similar homes in similar properties across the Merseyside region, all of which sit on good ratings with Ofsted. We support all local boroughs in housing their looked after children. We are an established company based in Liverpool. We have a proven track record and deliver excellent results for the young people in our care. We aim to establish ourselves in the local community, with as little disruption as possible, and, become a vital member of said community. In all our other homes we have an excellent relationship with the neighbours and local community. Our young people are supported with an Ofsted registered manager on site daily, as well as an experienced, fully trained and qualified staff teams, providing 24/7 365 care and support. We have a proven track record in providing quality, and value for money for the local authorities as well as obtaining excellent outcomes for the young people.

there will be no material changes to the building apart from full modernisation throughout.

There will be 2 young people between the ages of 8-17 living in the property full time with low to moderate learning difficulties or low to moderate emotional and behavioural difficulties supported by a staff team of 2 on 24/7.

This staff team rotates every two days, so we have 6 permanent members of staff assigned to said property.

The manager is based at head office (L99db) not on site at the home, and this is the same scenario for the responsible individual (ri).

the RI oversees up to 6 homes so does not visit that often, and the manager is responsible for another home located close by so is not on site all the time but is available 24/7 for support.

As all our other homes are on good ratings with ofsted we actually fit into the local community very well and are seen as a positive for the local area, bringing much needed employment and safe stable homes for the young people placed in our care by the local authority.

We are fully Ofsted registered.

We have no extra movements of vehicles or people coming and going other than what you would expect from a normal domestic home.

We drop the children at school and pick them up and go shopping.

Staff change every 2 days but we actively encourage and incentivise the use of public transport to commute.

All our other homes are similar properties and have no adverse effects on the community.

We want and need to function as close to a normal domestic house as possible to get the young people used to living in such an environment and ready for integration into normal everyday life when they reach the age for independence.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

no changes are being made to the premises, only internal decor and modernisation.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?

☒ Yes

☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

☐ Yes

☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
