Yes please add the following.

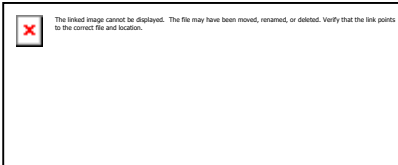

"We put the fence and gates in place due to the fact we have my mother in law living with us who is a vulnerable adult. She has alzheimers and had started to go missing and wandering off. She was at risk of crossing the road outside the house while not being aware of the dangers of traffic. This could have resulted in her being injured, killed or be lost. Also due to her condition all her inhibitions have gone and so we wanted to protect her dignity. "

The full details are in the confidential GP report you have.

Hi Jeffrey,

I hope you are well? Just seeking confirmation whether you intend to submit further statement for your application so that it can be put in the public domain? I am still waiting on highways response but have chased this today.

Kind regards,

John Fleming
