Dear Sir/Madam

EE Ltd and Hutchinson 3G UK Ltd

Permitted Development – Prior Approval Application

Installation of radio apparatus at J & L Supplies, 11A Caddick Road, South Knowsley, Merseyside, L34 9HP (NGR E: 343066 N: 396089)

On behalf of EE Ltd and H3G UK Ltd, in conjunction with Mobile Broadband Network Limited (MBNL), Pegasus Group submit herewith an application for a prior approval determination for the installation of the installation of digital communication equipment and ancillary development thereto at the above site. This application follows the completion of our pre-application engagement exercise, reflecting so far as is practicable the guidance and any comments offered.

The application is submitted in accordance with the requirements of Part 16 of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, and seeks a determination as to whether the Authority's approval will be required for the siting and appearance of the development.

The application comprises:

1. The written description of development: *"existing 15m monopole to be replaced with a 20m lattice tower which will support 6no. antennas and 3no. relocated antennas along with ancillary equipment thereto including ERSs, BOBs, MHAs, and equipment cabin refresh."*
2. A site plan drawn to scale showing the location where the apparatus will be installed (drg. no. 1495555-00-004-ML001 Rev 1);
3. Payment of the planning application fee (paid via the planning portal);
4. The Developer's contact details;
5. A copy of the Developer Notice and Proof of Delivery;

First Floor, South Wing, Equinox North, Great Park Road, Almondsbury, Bristol, BS32 4QL
T 01454 625945 E Bristol@pegasusgroup.co.uk
Offices throughout the UK.

Pegasus Group is a trading name of Pegasus Planning Group Limited (07277000) registered in England and Wales.
Registered Office: 33 Sheep Street, Cirencester, Gloucestershire, GL7 1RQ

Expertly Done.

6. The following drawings:

- i. Existing Site Plan (drg. no. 1495555-00-000-MD001 Rev 1);
- ii. Existing Site Elevation South East (drg. no. 1495555-00-002-MD001 Rev 1);
- iii. Proposed Site Plan (drg. no. UKMY005554-02-100-MD003 Rev 3);
- iv. Equipment Plan Proposed (drg. no. UKMY005554-02-101-MD003 Rev 3);
- v. Proposed Site Elevation (drg. no. UKMY005554-02-150-MD003 Rev 3);
- vi. Antenna Plan Proposed (drg. no. UKMY005554-02-151-MD003 Rev 3).

7. ICNIRP Certificate;

Developer's Contact Details

All correspondence and queries relating the determination of this application should be submitted to the undersigned.

However, in accordance with the requirements of The Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, any correspondence to the developers should be sent to:

For Cellnex UK:

Email: planning@cellnextelecom.co.uk

For EE and Hutchison 3G UK Ltd:

MBNL, Sixth Floor, Thames Tower, Station Road, Reading, RG1 1LX

MBNL: will.osborne@mbnl.co.uk

This letter and the enclosures also provide due notification, as may be required, under the relevant conditions of the Electronic Communications Code (Conditions and Restrictions) Regulations 2003, as amended. In particular, you are given notice of the intention to install the electronic communications apparatus described in more detail in the application documentation (including the scale drawings) and to be located as shown on the application plans. We indicated in our prior engagement letter that the Traffic Light Rating was amber. The prior engagement carried out suggests this rating to be correct and we have not altered it.

The Scope of the Prior Approval Determination

The permitted development rights granted by Part 16 of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended (the GPDO), exist to

facilitate the establishment of modern communications apparatus and infrastructure such as for 5G, judged by successive governments to be important to a modern economy and in attaining sustainability objectives.

The permitted development granted subject to the prior approval procedure is similar to the grant of outline planning permission, with details of precise siting and appearance being reserved. This is explained at Annex A Glossary of Code of Practice for Wireless Network Development in England, March 2022. The National Planning Policy Framework is also accordingly clear that permitted development rights should not generally be withdrawn.

As a consequence, the scope of determination does not extend to whether the site selected is needed, as the development is acceptable in principle due to the rights conveyed by the GPDO. Likewise, whilst information on alternative sites may be supplied by way of background and context, the extent of control on siting is limited to the precise siting on a site and not the general location.

As the principle of development at the application site is permitted by the GPDO, the submitted Planning Statement focuses on the statutory criteria of detailed siting and appearance. In so doing, this is considered against current town and country planning guidance, including the development plan which are material considerations, and with reference to the operational requirements of the operator and the attempts to accommodate the particular requirement.

Paragraph 100 of the Code of Practice indicates that where appropriate supplementary information will be submitted with the application and we trust all the supporting material submitted in fulfilment of this is of assistance. However, if you do require any clarification or further information, please let us know immediately.

Whilst as a matter of best practice extensive supporting material is submitted, the lawful scope of determination remains confined to the detailed siting and appearance of the apparatus proposed.

The permitted development rights exist to facilitate the establishment of modern communications, judged by successive governments to be important to a modern economy and in attaining sustainability objectives.

Finally, your attention is drawn to the statutory 56 days period for the determination of this application of this nature upon which detailed advice is given at paragraph 101 onwards of the Code of Practice for Wireless Network Development in England.

We trust everything is in order, but if you do require any further information or clarification, please do not hesitate to contact me using the contact details provided below.

Yours faithfully

Archie Roberts

Planner
