Planning History

Two applications have been approved at the property, a kitchen extension (74/08777/HIST – approved 18/4/1985) and living room rear extension (74/13359/HIST – approved 31/05/1991).

Relevant Policy

Paragraph 11 of the National Planning Policy Framework (NPPF) states that planning decisions should apply a presumption in favour of sustainable development. This means approving development proposals that accord with an up-to-date development plan without delay; or where the development plan is absent, silent or out of date planning permission should be granted unless the application of policies in the NPPF that protect areas or assets of particular importance provides a clear reason for refusing the development proposed; or any adverse impacts of doing so would significantly and demonstrably outweigh the benefits, when assessed against the policies in the NPPF taken as a whole.

Paragraph 12 of the NPPF clarifies that the presumption in favour of sustainable development does not change the statutory status of the development plan as the starting point for decision making. Where a planning application conflicts with an up-to-date development plan, permission should not normally be granted. Local planning authorities may take decisions that depart from an up-to-date development plan, but only if material considerations in a particular case indicate that the plan should not be followed.

The development plan in Knowsley comprises the Saved Policies of the Replacement Unitary Development Plan, the Core Strategy Local Plan and the Joint Waste Local Plan. The following policies are relevant to the determination of this application.

KNOWSLEY LOCAL PLAN: CORE STRATEGY

CS2 - Development Principles

CS19 - Design Quality and Accessibility in New Development

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

H8 - Extensions and Alterations to Residential Properties

Article 35 Statement

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

Assessment

Character of Area

The extension would be pitched in accordance with the main dwelling and would not be a disproportionate addition. It would continue the building line of the existing extension forward and match it in height and width. Therefore, there would be no harm to the character of the area. A condition will be attached to ensure matching materials.

Neighbour Amenity

There would be no harm to neighbours as the extension is on the opposite side to The adjoined dwelling (24). All other neighbours are further away and will not be affected by the extension.

Overall, it is considered that there would not be significant harm to amenity.

Conclusion

The proposal would be acceptable in relation to Street scene and Neighbour amenity. The application complies with local planning policies and is recommended for approval.

Recommendation

- 1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

- c. Location Plan – (received 29/01/2024).

Reason: For the avoidance of doubt.

- 3) The materials to be used on the external surfaces of the extension hereby permitted shall match those of the existing building in type, size, colour and texture.
