

Typical Detail - Closeboard Fence

The Dip Treated Closeboard Fence Panel is a strong, sturdy and secure panel, perfect for privacy and security along boundaries.

It features thick overlapping square cut 8mm boards, arranged vertically and mounted to a perimeter frame to make an attractive looking panel.

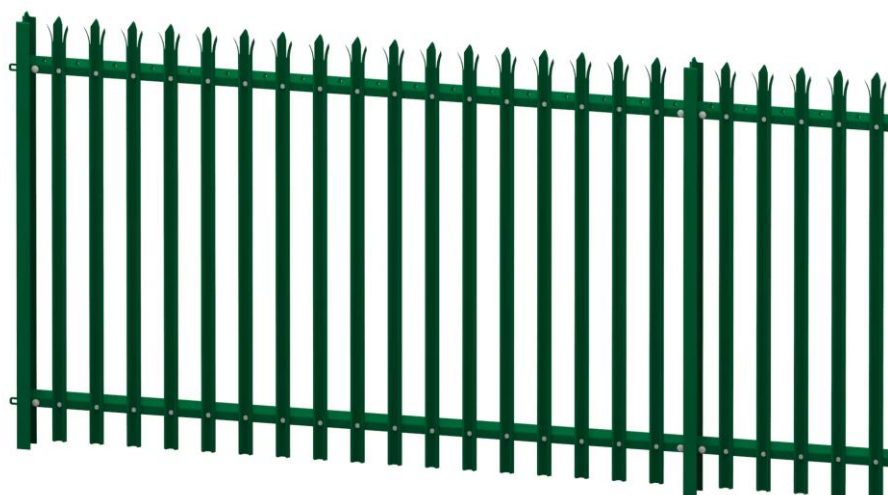

The durable 6ft panels are reinforced with two 45mm central batten on the back and are finished with a profiled panel cap.

These heavy-duty panels are dip treated to give a 10 year anti-rot guarantee, and have a golden brown finish.

Manufactured in the UK from FSC certified timber.

Height	1826 mm
Thickness	47 mm
Width	1828 mm
Size Imperial	6 x 6ft
Weight	27.30 kg
Material	Timber
Colour	Golden Brown
Treatment	Dip Treated
Years Guaranteed	10
Certifications Met	FSC®
Type	Closeboard Panels

Typical Detail - Powder Coated Palisade Fence

Palisade fencing is designed to create a secure and robust perimeter around an area that requires strong security fencing.

This security fencing has a number of different security features which makes the fencing difficult to break into or climb over. All the pales have a 'W' section in their design which makes it incredibly difficult to grip onto.

This Palisade fencing is available in three different pales types. The triple pointed pales are the most secure, as the pales splits into three points. These spikes can catch on to clothing and make it very difficult to climb over. The single pointed pales are a single point which make it very difficult to grip and use to climb over. Lastly, the round and notched pales are rounded at the top.

This fence is equipped with a top and bottom rail. The top rail is fitted with small spikes to prevent people from using the top bar to climb over. Snap off bolts are used which, once fitted in place, can snap off to create a smooth anti-tamper finish.

Installed height	2000mm
Total post length	Dig In: 2600mm Bolt Down: 2000mm
Width	2750mm (post centre to post centre)
Weight	Per bay: 64.34kg Per metre: 23.4kg
Post types	Dig In, Bolt Down
Material	Galvanised Steel
Finish	Galvanised / Polyester Powder Coated (PPC)
PPC colours	Green, Black, Blue, Red, Grey, Yellow
Compliant To	BS EN ISO 1461:2009
Pale Types	Triple Pointed, Round & Notched, Single Point
Pale Height	1950mm
