**REGENERATION AND ECONOMIC DEVELOPMENT
DEPARTMENT**

TOWN AND COUNTRY PLANNING ACT 1990

PLANNING PERMISSION

Application No: 23/02738/FUL

Name and address of applicant

Olympic Oils
Olympic Fallows Way
Whiston
Knowsley
L35 1RZ

Name and address of agent

Smith Young Architecture Ltd
23 Roscoe Street
Liverpool
L1 2SX

Date of Receipt: 20 October 2023

Date Valid: 2 January 2024

Address/Location Of Development:

Olympic
Fallows Way
Whiston
Knowsley
L35 1RZ

Description of Development:

**ERECTION OF EXTENSION TO MAIN BUILDING FOR USE AS A STORAGE UNIT
(B8) AND ASSOCIATED WORKS**

The Council of the Metropolitan Borough of Knowsley hereby give notice in pursuance of the above Act(s) that Planning Permission has been **granted** for the carrying out of the development referred to above in accordance with the application and plans submitted subject to the following condition(s):

1. The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason: In order to comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended).

2. The development hereby permitted shall be carried out in accordance with the approved plans and documents listed in Schedule 1.

Reason: For the avoidance of doubt.

3. A Phase I site investigation shall be submitted for written approval prior to works commencing in order to establish whether there are any concerns of contamination from the current or previous use of the site or adjacent sites. This report shall include the results of a desk study, site walkover, and human health and environmental risk assessment.

If identified as necessary by the desk study a Phase 2 site investigation and remediation proposals shall be submitted for approval prior to works commencing. In any event the applicant/developer is requested to contact the Council's Environmental Protection Unit (Tel: 0151 443 4712) as soon as is practicable should previously unsuspected contamination be encountered during the development of the site. A site completion report shall be submitted for written approval prior to occupation confirming that encountered site conditions were as expected and detailing any necessary remedial actions.

Reason: In order to protect human health and avoid contamination.

4. No part of the development hereby permitted shall be commenced until a Construction Management Plan has been submitted to and agreed in writing by the

Local Planning Authority that details the means of mitigation of construction effects.

This shall include but not be limited to the following:

- a. Methods for the mitigation of noise and vibration from building works, including any piling works, and also from the operation of any temporary power generation or pumping plant which will operate overnight.
- b. Methods for dust control and suppression.
- c. Details of wheel washing facilities including location and type.
- d. The areas for the storage of plant and materials.
- e. Location of site compound.
- f. Details of relevant pest control measures
- g. A programme of works if applicable
- h. Management of deliveries

All site works shall then proceed only in accordance with the approved management

Plan and remain for the duration of the construction period.

Reason: To ensure the satisfactory development of the site and in the interests of protecting the amenity of neighbouring occupiers and to comply with saved Policies

H5, and ENV2 of the Knowsley Replacement Unitary Development Plan, adopted June 2006 and Policy CS2 of the Core Strategy, adopted January 2016.

5. Prior to the commencement of development, a lighting scheme which includes the steps necessary to minimise light intrusion to local dwellings shall be submitted for the written approval of the local planning authority. The scheme shall ensure that the

obtrusive light limitations suggested in the relevant guidance are met.

All works which form part of the scheme shall be completed prior to operation and shall be maintained thereafter in accordance with the agreed scheme.

Reason: In order to safeguard the residential amenity of neighbours.

6. No development shall commence until;

- a) a scheme of intrusive site investigations has been carried out on site to establish the risks posed to the development by past coal mining activity, and;
- b) any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is made safe and stable for the development proposed.

The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

Reason: To ensure risks associated with mining are properly addressed.

7. Development shall not commence until a detailed SUDS based drainage scheme based on the principles of the SUDS Manual (C753) and the criteria as set out within Liverpool City Region Combined Authority Strategic Flood Risk Assessment (Nov 23) has been submitted and approved in writing by the Local Planning Authority (LPA). The applicant should provide suitable drainage drawings and summary calculations. The works shall be implemented in accordance with the approved scheme before the development is brought into use and retained hereafter.

Reason: In order to provide sustainable drainage for the site.

8. Prior to the occupation of the extension a landscape scheme to replace lost trees and enhance biodiversity shall be submitted to and have been approved by the local planning authority.

The landscaping shall include native tree and plant species and shall include bird and bat nesting boxes.

The scheme shall include replacement tree planting on a 2:1 basis. The scheme should include the location, size and species of the replacement trees. The trees shall be a minimum of 12-24cm girth.

The bird and bat boxes shall be installed prior to occupation of the building and retained hereafter.

The tree planting shall be wholly implemented in its finally approved form in accordance with the approved scheme within the first available planting season following the substantial completion of development. Any tree or other planting which is lost, felled, removed, becomes diseased, or is substantially damaged within

a period of five years thereafter shall be replaced in kind during the first available planting season following the date of loss or damage.

Reason: To enhance biodiversity and to comply with Policy CS8 of the Knowsley Local Plan Core Strategy adopted January 2016.

9. The development shall not be brought into use until the areas identified in drawing 002 Rev A have been hard surfaced, drained within the site and permanently marked out or demarcated in accordance with the details agreed. These areas shall be retained as such thereafter.

Reason: In the interests of highway and pedestrian safety and to comply with Policy CS7 of the Core Strategy, adopted January 2016.

10. Prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

Reason: To ensure risks associated with mining are properly addressed.

11. No construction work shall take place outside the hours of 08:00-18:00 hours Monday to Friday, 08:00-13:00 hours Saturday and not at all on Sundays/Public Holidays.

Reason: In order to protect residential amenity.

12. Fixed plant and machinery associated with the development shall be designed to a level that is at least 5dB(A) below the existing LA90 background noise level as measured during the relevant time period. Any tonal, impulsive and/or irregular noise would be addressed by imposing a penalty as per the methodology set out in BS 4142:2014+A1:2019, Methods for Rating and Assessing Industrial and Commercial Sound. Noise limits for fixed plant are to apply at a position 1 metre from the closest affected window of the nearest noise sensitive property.

Reason: In order to protect residents from harmful noise levels.

SCHEDULE 1

Date Received	Ref. No	Version	Drawing/Document Title
16/02/24	002	REV A	PROPOSED SITE PLAN
20/10/23	006		PROPOSED PLANS AND ELEVATIONS
20/10/23	005		PROPOSED ELEVATIONS/SECTIONS
20/10/23	004		EXISTING AND PROPOSED FLOORPLANS
20/10/23	001		LOCATION PLAN

REASON(S) FOR THE GRANTING OF PLANNING PERMISSION

The decision to grant planning permission has also been taken having regard to the policies and proposals as set out below, and to all relevant material considerations including supplementary planning guidance:-

KNOWSLEY LOCAL PLAN: CORE STRATEGY

CS2 - Development Principles
CS4 - Economy and Employment
CS7 - Transport Networks
CS19 - Design Quality and Accessibility in New Development
CS21 - Greenspaces and Trees

SAVED POLICIES - KNOWSLEY REPLACEMENT UNITARY DEVELOPMENT PLAN (ADOPTED JUNE 2006)

EC3 - Primarily Industrial Areas

DQ4 - Trees and Development

ENV5 - Contaminated Land

This informative is only intended as a summary of the reason(s) for the granting of planning permission. Should you require any further details relating to the decision please contact the relevant case officer (Andrew Hunt on 0151 443 2204)

ARTICLE 35 STATEMENT

The Local Planning Authority has acted positively and proactively in determining this application by identifying matters of concern within the application (as originally submitted) and negotiating with the applicant, acceptable amendments to the proposal to address those concerns. As a result, the Local Planning Authority has been able to grant planning permission for an acceptable proposal, in accordance with the presumption in favour of sustainable development, as set out within the National Planning Policy Framework.

NOTE FOR APPLICANT:

IMPORTANT - PLEASE READ CAREFULLY THE NOTES BELOW AS FAILURE TO COMPLY COULD MAKE THE DEVELOPMENT HEREBY PERMITTED UNAUTHORISED

- 1) This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - b) You or your agent or any other person responsible for implementing this permission should inform Planning Services immediately of any proposed variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.
- 2) This permission is granted subject to conditions and it is the owner of the property and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond.
- 3) If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent.
 - a) If a condition precedent is not complied with prior to the start of development, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - b) In addition, if the requirements of a condition precedent are subsequently not complied with, the development is unauthorised and the only way to rectify the development is the submission of a new application.

If any other type of condition is breached then you will be liable to a breach of condition notice.

- 1 The proposed development lies within an area that has been defined by the Mining Remediation Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Mining Remediation Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure a suitable engineering design which takes account of all relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Mining Remediation Authority Policy in relation to new development and mine entries available at:

Building on or within the influencing distance of mine entries - GOV.UK

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Mining Remediation Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Application forms for Mining Remediation Authority permission and further guidance can be obtained from The Mining Remediation Authority's website at: www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property

What is a permit and how to get one? - GOV.UK (www.gov.uk)

In areas where shallow coal seams are present caution should be taken when carrying out any on site burning or heat focused activities.

If any future development has the potential to encounter coal seams which require excavating, for example excavation of building foundations, service trenches, development platforms, earthworks, non-coal mineral operations, an Incidental Coal Agreement will be required. Further information regarding Incidental Coal Agreements can be found here - <https://www.gov.uk/government/publications/incidental-coal-agreement/guidance-notes-for-applicants-for-incidental-coal-agreements>

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Mining Remediation Authority on 0800 288 4242. Further information is available on the Mining Remediation Authority website at: Mining Remediation Authority - GOV.UK

Informative Note valid from 1st January 2025 until 31st December 2026

Executive Director - PLACE

Date: 6 August 2026

IMPORTANT NOTES FOR YOUR ATTENTION:

- 1. This permission refers only to that required under the Town and Country Planning Acts and does not include any consent or approval under any other enactment, bylaw, order or regulation.**
- 2. This permission refers only to those plans submitted as part of the Planning Application a copy of which is retained by the Local Planning Authority. The Local Planning Authority should be contacted in writing if it is proposed to amend these plans in any way as a further permission, may be required.**
- 1. You should ensure that you understand the requirements of all planning conditions and that you fully comply with their requirements. If you are in any doubt about what a condition requires of you, please ask us for assistance. Planning conditions may require you to submit further information to us and await our approval before you can start your development. A failure to do so could result in your development being unlawful and necessitate the submission of a further planning application. A failure to comply with the conditions of the permission/consent may result in the taking of enforcement and potentially legal action, against you to remedy the breach of planning control.**
- 2. A fee is normally payable to discharge planning conditions in accordance with government regulations.**
- 3. This permission does not convey any rights or approval to build on, or develop, any land that is not fully owned or controlled by you, including on party boundaries. You should satisfy yourself that the agreement of any adjoining landowners has been given prior to commencing any building works.**
- 4. If a Building Regulations Consent is required for these works it is your responsibility to ensure that the plans submitted for both the Building Regulations Consent and Planning Permission are the same in all respects. Should the plans relating to one consent vary from the other, it will be necessary for you to submit amended plans to this Department and obtain the relevant approval(s) prior to commencing any works. Knowsley Council's Building Control team are contactable on (0151)-443 2342 and they would be pleased to assist you.**

Appeals to the Secretary of State

- If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If you want to appeal against your local planning authority's decision then you must do so within 6 months of the date of this notice.
- Appeals can be made online at: <https://www.gov.uk/planning-inspectorate>.
If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.
- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
