

Statement

Condition no. 4 - PSPO – as requested by Mr Austin McGowan to submit application to remove the above condition, due to that the council has never implemented a PSPO order prior. In addition, as confirmed by highways department, it has been confirmed that due to an existing fire hydrant located to the existing alleyway, the relevant authorities would object to the closure of the alleyways, in addition it has also been confirmed that there is no Anti Social Behaviour records for the area, therefore there is no justification for a Public Space Protection Order for this application.

Therefore, the we ask for the condition to be removed.

Please contact Highways for further confirmation.

Condition 10 - Securing Passageways - In reference to the above and omission of the PSPO, no alley gates are therefore required, so we apply to remove this condition as well.
