Description of Proposed Works

Please describe the proposed development:

Solar PV system totalling 885kWp on the roof of Charley Wood Road Knowsley L33 7SG building. Panels will be sited on north and south facing roof areas. The proposed system will be on a shallow pitched roof, so the visual impact and risk of glare will be very low. Panels will be mounted less than 200mm from the plane of the roof in all cases. Panels will not be sited within 1m of an external edge of the roof. Equipment will be removed from the roof once it reaches the end of its useful life.
