

Ollerton Academy Stainless Steel Seat

The Ollerton Academy Seat has a simple design, with single column supports and narrow slat seating sections. The basic, yet functional design is suitable for a wide range of schemes. The seat is supplied with an integral base plate fixing, which can be bolted directly onto finished surfaces, or positioned below ground level. The Academy is manufactured in grade 1.4404 (316L) stainless steel, giving a contemporary finish. This high grade of stainless steel makes the material less prone to the effects of pitting and staining than lower grades, providing a durable, low maintenance solution.

Fixing:
Sub-surface mounted.
Surface mounted.

Seat span: 1800 mm.
Seat height: 437 mm.
Overall height: 783 mm.
Depth: 503 mm.

Local Fingerpost Signage

Roof supports and arches have a Zinc plated finish suitable for outdoors. Complete with curved Alveolar polycarbonate roof which is lightweight and shock proof. A polycarbonate roof is a much safer and more practical option than glass. Open design doesn't interfere with circulation for quicker smoke dispersion. Wall mounted design allows you to utilise all available space. Easy on site assembly (wall fixings are supplied)
