orchard dry stone wall

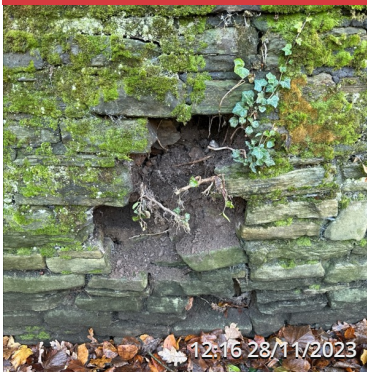

Tuesday, 28 November 2023

6 Issues Identified

ISSUE 1

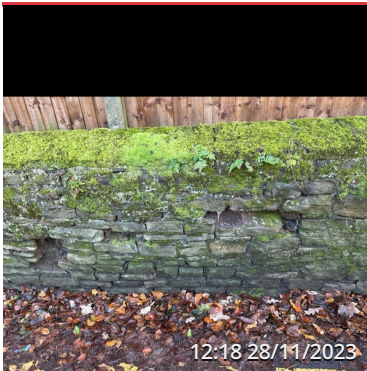

Assigned To The Orchard Entrance Road

ISSUE 2

Assigned To Dry Stone Wall Orchard Area Of The Complaint.

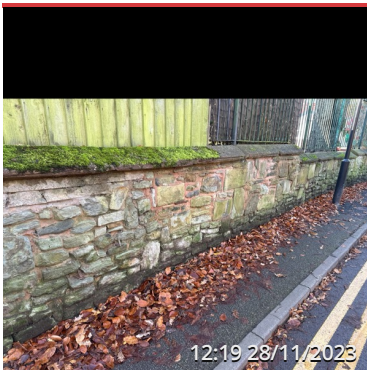

Looks as though roots are growing through the block and pushing the stone out.

ISSUE 3

Assigned To Orchard Dry Stone Wall

Other areas with the same problem.

ISSUE 4

Assigned To Other Areas Of Patching

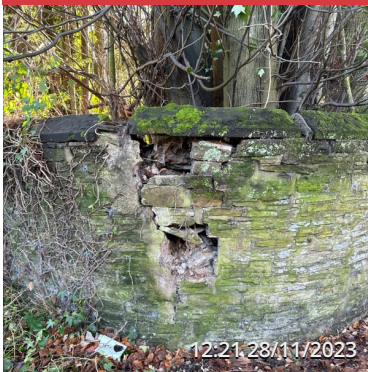

Numerous areas of patching have taken place over the years and the cause looks like the roots causing the problem.

ISSUE 5

Assigned To Photographs 5&6

These areas have not had complaints to my knowledge. The wall as a whole is in very poor condition prior to any work onsite.

ISSUE 6
