POLICY CONSIDERATIONS

The application complies with Policies CS2 and CS19 of the Core Strategy and saved Policies H5 and H8 of the UDP; the application also complies with the Householder Development SPD.

DESIGN, ACCESS AND CRIME PREVENTION

The design of the proposal is acceptable. The extension roof would be pitched like the main dwelling. Therefore, the extension complies with the Householder Development SPD.

Overall, the design of the scheme is acceptable. The application raises no crime or anti-social behaviour issues.

RESIDENTIAL AMENITY

The proposal would not harm the amenity of neighbouring properties.

In relation to 16, the extension projects around 3.8 metres long. This is less than the 4 metres permissible in the Householder Development SPD. However, the property of 16 is set back slightly from 18 by around 0.75 metres, which means that the extension would project around 4.5 metres beyond the rear of 16. The nearest window at the rear of 16 is set away from the boundary and is also part of a small rear extension that projects slightly further to the rear than the main dwelling. Overall, due to these considerations, it is considered that the extension would not have an unacceptable impact on the amenity of 16.

It is considered also that the extension would not materially impact on the amenity of other neighbours.

The extension complies with the Householder Development SPD. Overall, the proposal will not cause harm to the amenity of neighbouring properties.

CONCLUSION

The proposal is acceptable in design and would not harm the amenity of neighbouring properties, The application complies with local planning policies and is recommended for approval.
