The application is for the erection of single storey side/rear wrap around extension.

POLICY CONSIDERATIONS

The application complies with Policies CS2 and CS19 of the Core Strategy and saved Policies H5 and H8 of the UDP; the application also complies with the Householder Development SPD.

DESIGN, ACCESS AND CRIME PREVENTION

The design of the proposal is acceptable. The extension would have a pitched roof like the existing main dwelling and would be proportionate to the main dwelling. Therefore, the extension complies with the Householder Development SPD. Overall, the design of the scheme is acceptable. The application raises no crime or anti-social behaviour issues.

RESIDENTIAL AMENITY

The proposal would not harm the amenity of neighbouring properties.

In relation to 5, there would be no harm as the side extension would be on the opposite side of the dwelling and away from the boundary with 5. The rear extension would also only project by around 3 metres, which is in accordance with Para 7.4 of the Householder SPD.

In relation to 9, the extension would not cause harm to amenity as there are no ground floor side windows on the side of no 9 that would be affected by the extension. There would be no impact from the rear element of the extension as this would not extend as far as no 9. Therefore, there would be no impact on the residential amenity of 9.

The extension complies with the Householder Development SPD. Overall, the proposal will not cause harm to the amenity of neighbouring properties.

CONCLUSION

The proposal is acceptable in design and would not harm the amenity of neighbouring properties. The application complies with local planning policies and is recommended for approval.
