Tubular Tilt Down Poles AW1859 and AW4460

Height range - **AW1859** - 4m - 12m

Height range - **AW4460** - 4m - 8m

The AW4460 is a light duty tilt down tubular CCTV pole more suitable for fixed camera and dome installations, whereas the AW1859 range is a heavier duty product suitable for medium to heavy PTZ applications. Both products give a neat and aesthetic appearance and are suitable for installations where the public have access, whilst enabling camera equipment to be serviced at ground level. Flush door and secure locks make these secure products, designed for security installations. A full range of standard accessories back up this comprehensive range of tilt down poles.

AW1859/6
