Hello Mark,

I hope you are well.

Please find attached the requested photo of the two types of brick I propose to use. There is only a very minor difference in colour shade between the two bricks, and both have been used in the recent house extension.

Of the two bricks in the photo, the top brick will be used on the top couple of layers of the proposed solid brick wall, whilst the bottom brick in the photo will be used for the remainder of the wall.

Any further questions, please do not hesitate to contact me.

Kind regards,
Brian Fullerton.

Hello Mark

Please see attached revised site layout now showing visibility splay sight lines in accordance with your previous email. I feel its ok and works.

With regards to the boundary wall construction yes if you recommend that it needs to be constructed in just brick that's what my client will have to do.

Brian, can you please send Mark some photos direct or a brochure of the brick type you are thinking.

Thanks

Kindest Regards

James
