Details of the pre-application advice received

The feedback was positive regarding the site layout and overall design intent including the change of approach for the site. The design aims to complement the heritage assets and the general setting of the site, and creates an attractive residential development in this sustainable location off Baileys Lane.

Additional comment was received from the Highways officer regarding the access into the site. It was noted that one point of access was preferable due to the location of the proposed access to the neighbouring properties. In addition it was noted that parking requirements need to be met of 1:1 parking for 1 Bed units and 1:2 Parking for 2 Bed units.

The design was updated following this pre-application advice to propose a single access point off Baileys Lane and to address all comments towards overall parking provision, RPAs and biodiversity.

Further information on the pre-application is noted within the Design and Access Statement
