

Biodiversity gain plan

Submit a biodiversity gain plan to show how your development will achieve biodiversity net gain.

When to use this form

A biodiversity gain plan shows how a development will achieve 10% biodiversity net gain (BNG). Submit this form to your local planning authority after they approve your planning application.

Unless your development is exempt, you cannot start the development until the LPA approves your biodiversity gain plan and biodiversity metric calculation tool.

4.4 How will you avoid or minimise impacts to habitats?

Tell us about the steps you've taken on site, including to avoid or minimise the impact on irreplaceable habitats.

No impact on irreplaceable habitats. The development was sited on a small area of mown amenity grassland of low distinctiveness and 7 small, immature trees were lost to facilitate the development.

Was not required at planning stage. However, a site walkover was conducted by Rebecca Sambrook (Ecologist) on 23 June 2025 and it was observed that the red line boundary encompassed part of the school playing fields which comprised very short mown amenity grassland of low distinctiveness. Photographs of the area and the 7 trees to be lost were also reviewed.
