

T879 – Knowsley

Earthworks Sequence Revision 002

Key

Access/Egress to site

Material movement

Topsoil strip

Topsoil stockpile

Excavate to reduce levels

Fill and modify to 5% CBR to make up levels

Attenuation tank

Re-soiling to landscape areas with site-won topsoil

Stabilise 300mm formation layer to 30% CBR

Supply and place imported Type 1

Finished areas
