

Application for Planning Permission

Please find below the requested information to assist with your assessment of the planning application:

Approximate number of patients per day

The dental practice is expected to see approximately **24–48 patients per day**. This may vary depending on demand and the types of treatments being carried out. If all three surgeries are operational, there would be a maximum of **three patients on-site at any one time**.

Number of staff members and staffing rota

The practice will employ **three staff members** in total. Staffing will be organised to align with the number of surgeries in use and appointment demand.

Number of appointments available each day

The number of appointments will vary depending on treatment types and surgery usage; however, this is anticipated to be approximately **20–25 appointments per day per surgery**.

Proposed opening times

The proposed opening hours are **08:30–16:30**. These hours include time allocated for cleaning, administrative tasks, and preparation.
