

Appendix ATD(5)-08 – Statement by C Housley

My name is C Housley of ATE Farms. I am named as the Applicant on the application forms.

This application requests confirmation planning permission 19/00469/FUL can continue to be implemented as approved. The planning permission granted is for the demolition of existing stable building and erection of 5 dwellings. Condition (1) required that the development began before 15 June 2025.

I can confirm work to demolish the existing stable building began on Friday 23 May 2025. This work involved the demolition of internal blockwork partitions which had been used to provide stabling for horses.

I attach five photographs which I took of the existing building on 23 May 2025, showing the work in progress. The photographs show material from the demolition of internal blockwork partitions being stockpiled on the ground, prior to being transferred to a vehicle for removal from the site. The vehicle which can be seen in the photographs was used in the demolition of the partitions.
