

Appendix ATD(5)-09 – Statement by C Housley

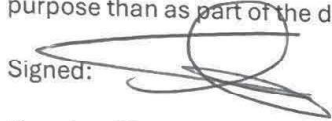

My name is C Housley of ATE Farms. I am named as the Applicant on the application forms.

The application requests confirmation planning permission 19/00469/FUL can continue to be implemented as approved. The planning permission granted is for the demolition of existing stable building and erection of 5 dwellings. Condition (1) required that the development began before 15 June 2025.

I can confirm work to demolish the existing stable building was complete by Tuesday 10 June 2025. I attach six photographs which I took on 10 June 2025, showing the vacant site where the stable building had stood. The photographs show where the building had been razed to the ground.

The demolition of the existing stable building was necessary to enable access to carry out groundworks to create the building platform for the construction of the houses. There was no other reason to demolish the building and the demolition was not carried out for any other purpose than as part of the development for which planning permission had been granted.
