

Why Commissioners Should Choose Positive Progressive Limited

Delivering Stable, Local Residential Care for Knowsley Children

Positive Progressive Limited is committed to supporting Knowsley borough council in delivering high-quality residential care for children and young people with emotional and behavioural difficulties and learning needs.

Our proposed 3-bed Ofsted registered children's home for children aged 5–17 has been designed specifically to meet the growing demand for stable, specialist local placements.

At a time when local authorities face increasing pressure securing appropriate residential placements, Positive Progressive Limited provides a safe, nurturing and carefully structured environment where children can stabilise, recover from trauma and rebuild positive life outcomes.

Supporting Knowsley's Sufficiency Priorities

Our provision has been developed to directly support the sufficiency goals of Knowsley borough council, particularly:

- Increasing local placement availability
- Reducing reliance on out-of-area placements
- Improving placement stability
- Supporting children with complex emotional and developmental needs

By delivering a local, small residential home, we aim to ensure children can remain close to their families, communities and schools.

Currently over 60% of children looked after by Knowsley are placed outside the borough, this does highlight the urgent need for additional high-quality local Ofsted registered provisions locally.

Why Our Model Works

Small, Stable Homes

Our 3-bed residential model allows for:

- personalised care
- strong relationships between staff and children
- carefully matched placements.

Smaller homes significantly reduce the risk of placement breakdown and provide a calmer environment for children with emotional and behavioural needs.

Specialist Support for Complex Needs

The home will support children presenting with:

- Emotional and behavioural difficulties
- Learning difficulties
- Autism and neurodiversity
- Trauma related behaviours.

Our care model integrates trauma-informed practice and neurodiversity awareness, recognising the complex needs many children in care present with.

Experienced Leadership

The service will be overseen by experienced leadership with extensive knowledge of:

- children's residential care
- Ofsted regulatory frameworks
- safeguarding and trauma-informed care.

Strong leadership ensures high standards of care, regulatory compliance and continuous service improvement.

Partnership with Local Authorities

Positive Progressive Limited is committed to working collaboratively with:

- social workers
- commissioning teams
- education providers
- CAMHS services.

Our approach ensures that each child receives coordinated, holistic support.

Outcomes for Children

Our aim is to ensure every child placed within the home experiences:

- a stable and nurturing placement
- improved emotional wellbeing
- stronger relationships and attachment security
- improved engagement in education
- development of independence and life skills.

A Commitment to Local Children

At the heart of our service is a commitment to ensuring children from [Knowsley](#) have access to high-quality care close to home.

By providing specialist residential provision within the Liverpool City Region, Positive Progressive Limited will support local authorities in delivering stable, appropriate placements for children with complex needs.

Working Together

Positive Progressive Limited welcomes the opportunity to work with Knowsley borough council to ensure children and young people receive the safe, nurturing and supportive care environments they deserve.

We would welcome the opportunity to discuss how this provision can support the borough's current and future placement needs.
